

# BAG OPENER PROMECO PBO

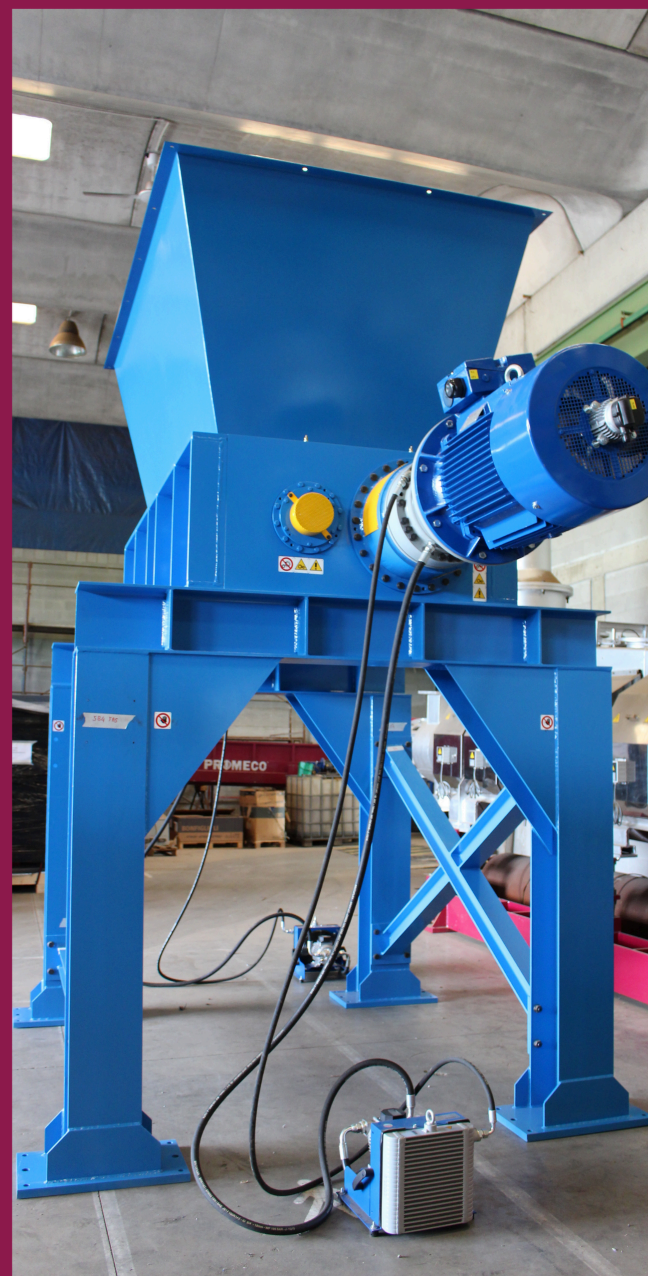

Promeco bag opener PBO is designed to cut bags without shredding the content. The two rotors are independent and equipped with specially designed knives which make the machine ideal to work at the beginning of sorting plants. Promeco Bag Opener PBO is the best machinery to open bags of MSW to be sent to further processing lines granting the opening of the bags without breaking the content. The shape of the blades allows the shredding of any eventual bulky material so that the machine can work continually. The PBO is a shredder that does not shred!

## TECHNICAL FEATURES

- Robustness
- Optimization of the cutting process
- Reliability
- Versatility
- Easy of maintenance

## INPUT MATERIAL

- Municipal solid waste - MSW
- Packaging
- Organic waste

## OUTPUT MATERIAL

- Loose material on the conveyor belt

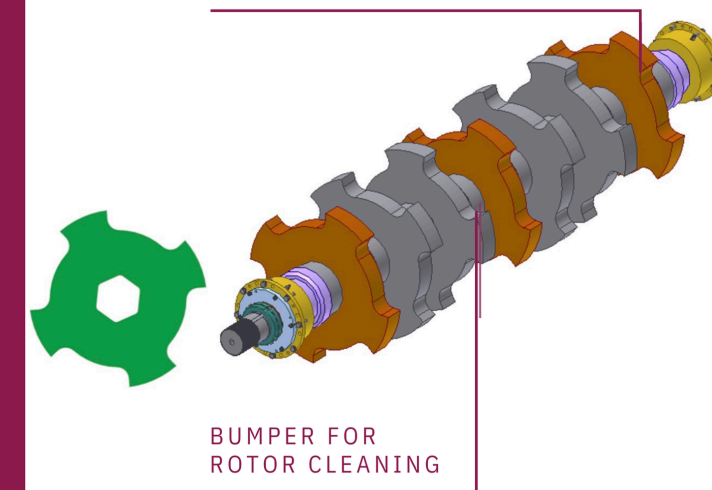

## MODELS AVAILABLE

Rotor's length:  
from 1000 to 2000 mm

Power:  
from 2x37,5 kW - 2x132 kW  
Customized models upon request

KNIVES IN WEAR  
PREVENTION MATERIAL  
SUITABLE FOR HARDFACING
